

Posicione o pino distal no colo do 2º metacarpiano com angulação aproximada de 45

Position the pin distal in the lap of the 2º metacarpian with approximate of 45° angulation.

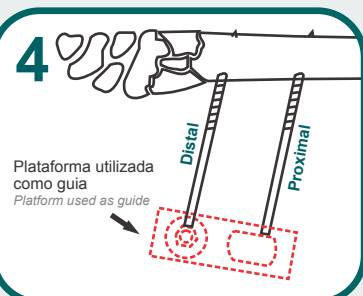

Posicione o pino proximal na base do 2º metacarpiano com angulação aproximada de 45°. Utilizar a plataforma como guia.

Position the pin proximal in the base of the 2º metacarpian with approximate 45° of angulation. Use the platform as guide.

3

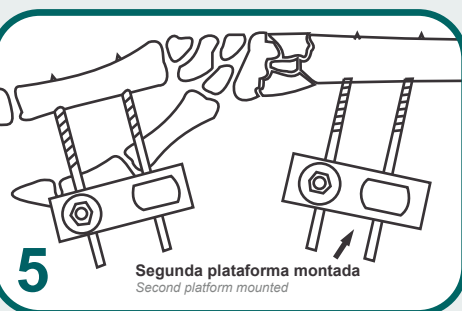

A montagem da plataforma nos pinos do 2º metacarpiano, mantendo uma distância de um dedo transverso da pele

The assembly of the platform in the pins of the 2º metacarpian, maintaining a distance of a transverse finger of the skin.

4

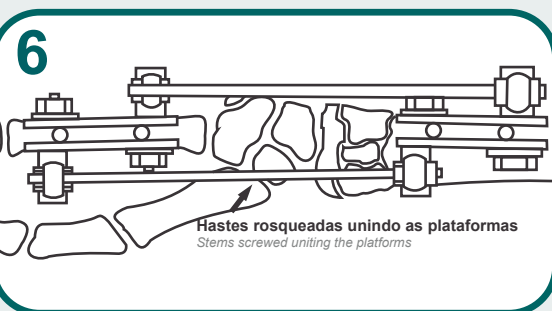

Na diáfase do rádio, o pino mais distal é colocado na intersecção dos 1/3 médio e distal do rádio. Colocação do segundo pino na diáfase radial

In the diaphysis of the radio, the pin more distal is placed in the intersection of the 1/3 medium and distal of the radio. Placement of the second pin in the radial diaphysis.

5

Montagem da plataforma na diáfase radial

Assembly of the platform in the radial diaphysis.

6

Conexão das hastes rosqueadas (6mm) unindo as plataformas. Faz-se as correções das deformidades e fixam-se as hastes

Connection of the stems screwed (6mm) uniting the platforms. It is made the corrections of the deformities and fixes the stems
